Experience

Software Engineer

May 2025 - Present

Uimatic, Mohali

- Developed scalable **RESTful APIs** and backend features using **Node/Laravel**.
- Built and enhanced **Vue.js/React.js** websites and **LTI app** user-facing feature.
- Integrated payment, delivery, and POS systems sync into a multi-tenant e-commerce platform.

Full Stack Developer

Nov 2024 - Apr 2025

V Recruiters, Zirkpur

- Developed RESTful APIs using **Node.js** and **Express.js**.
- Built and maintained an **Admin Panel** for managing application data and users.
- Collaborated using **Git/GitHub** while developing, testing, and debugging backend features.

MERN Stack Trainee

June 2024 - Nov 2024

Excellence Technology, Mohali

- Learned the fundamentals of the **MERN Stack** (MongoDB, Express.js, React.js, and Node.js) through hands-on projects.
- Gained practical experience with **Git, GitHub, REST APIs, and database integration**.
- Strengthened core **JavaScript**, debugging, responsive web development, and software development workflow skills.

Projects

Ecom Website | Vue JS/Laravel

July 2022 - Aug 2022

- Developed and maintained a scalable **multi-tenant e-commerce platform** using **Vue.js** for the frontend and **Laravel** for the backend.
- Integrated **PayMongo** for online payment processing and **Lalamove** for delivery and logistics management.
- Integrated **POS synchronization with Mosaic**, enabling seamless data synchronization between the e-commerce platform and the POS system.

Wave AI | MERN Stack

Feb 2021 - March 2023

- Developed a **AI chat application** using **React, Vite, Tailwind CSS, Node.js, and Express** with a clean, responsive UI.
- Integrated **Hugging Face inference with the Qwen/Qwen3-4B-Thinking-2507:nscale model** to provide context-aware conversational AI and personalized recommendations.
- Implemented **real-time AI chat with low-latency streaming** and route-based navigation for Home, Pricing, Roadmap, and Chat pages.
